

**ADVANCED DIPLOMA OF WESTERN HERBAL MEDICINE – HLT60107**  
**Schedule of fees and census dates for 2010 v151009DCS**

**Total course tuition fees (9 terms) domestic/VET FEE-HELP eligible students = \$20,033.00**

**Total course tuition fees (9 terms) overseas students = \$23,121.00**

All unit of study tuition fees are applicable for units of study delivered by the AIHM's Cockburn Central, Western Australia campus

AIHM unit of study	Brief Unit description	Unit fee Domestic Students/ VET FEE-HELP eligible students	Unit fee Overseas Students	RPL Unit Fee	EFTSL (Equivalent Full Time Study Load)	2010 Start dates	2010 End dates	2010 Census dates
<b>TERM 1</b>								
ANP101 - Anatomy & Physiology	This is a core unit for all the courses offered and the areas covered include an introduction to the human body and it's various systems. Other areas covered in more depth include; cells, the skeletal system, joints, muscle systems and muscle tissues	\$546.50	\$630.00	\$273.00	0.1	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
PHI102 - Naturopathic Philosophy	The history and philosophy of several areas of Natural Therapies are studied including; Acupuncture, Homoeopathy, Herbal Medicine, Iridology, Kinesiology, Reflexology, Massage, Meditation, Cleansing, Ayurveda, Mind Body connection, Tai-Chi, Flower Essences and Life Purpose and Fulfilment are explored.	\$546.50	\$630.00	\$273.00	0.1	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
NAT107 – Foundations of Nutrition	Areas covered include; carbohydrates, lipids, protein, water soluble vitamins, lipid soluble vitamins and their sources, availability, interaction signs and symptoms of vitamin and mineral deficiency, toxicity, food allergies, exclusion diet and food and drug interaction	\$546.50	\$630.00	\$273.00	0.1	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
HER119 - History, Philosophy & Botany of Herbal Medicine	The purpose of this unit is to provide the participants with an introduction to the history and philosophies of herbal medicine, incorporating an introduction to herbal botany. Areas covered in this unit include; the history and philosophies of Chinese, Ayurvedic, Roman, Greek, Native American and Aboriginal Herbal Medicine. Plant Identification, Taxonomy	\$546.50	\$630.00	\$273.00	0.1	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010

	and Nomenclature, learning how to communicate knowledge of Herbal medicine principles and practice, an introduction to dispensing medicine and methods of application and also outlining the legal issues pertaining to Australian Herbalists are also covered.					Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
<b>TERM 2</b>								
ANP201 - Anatomy & Physiology	In this unit students will learn about tissues of the body, functions of the lymphatic and immunity systems as well as the digestive system, the Integumentary system, the Endocrine system and the Cardiovascular system.	\$546.50	\$630.00	\$273.00	0.1	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
CLI129 - Clinical Procedures & First Aid	Areas covered in this unit include; clinical procedures, client history taking, general examination, instrument handling, use of computer software associated with natural medicine, laboratory tests relating to natural therapies and results, consultation demonstrations and treatment protocols & OH&S. It also provides a training program to achieve the standard required for the nationally recognised Senior First Aid Certificate. Areas covered include; cardio-pulmonary resuscitation, management of an unconscious casualty, internal and external bleeding, fractures, burns, poisons, bites, stings, eye and ear injuries	\$546.50	\$630.00	\$273.00	0.1	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
HER219 - Herbal Medicine	This is one of the 2 units (the other is HER319) that continue the study of herbal botany, incorporating the harvesting and drying of herbs. They are designed to provide the participant with knowledge of the pharmacological and phytochemical basis of medicinal plants and to give a better understanding of herbal medicine by teaching the actions, indications, contra-indications and differential materia medica. Areas covered include principles of phyto-therapy, active constituents and chemistry of herbs, pharmacology and pharmacognosy of herbs, dispensing procedures and requirements, creating treatment strategies and an introduction to herb dosages, an in depth study of 109 core herbs as recommended by the National Herbalists Association of Australia, taking a comprehensive assessment of the client, managing specialised herbal treatments and discussing contra-indications of herbs and herbal treatments	\$546.50	\$630.00	\$273.00	0.1	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010

TERM 3								
ANP301 - Anatomy & Physiology	In this unit students will learn about the respiratory system, the reproductive system and the urinary system as well as learning more details on the heart, blood vessels and hemodynamics.	\$546.50	\$630.00	\$273.00	0.1	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
HER319 - Herbal Medicine	This is one of the 2 units (the other is HER219) that continue the study of herbal botany, incorporating the harvesting and drying of herbs. They are designed to provide the participant with knowledge of the pharmacological and phytochemical basis of medicinal plants and to give a better understanding of herbal medicine by teaching the actions, indications, contra-indications and differential materia medica. Areas covered include principles of phyto-therapy, active constituents and chemistry of herbs, pharmacology and pharmacognosy of herbs, dispensing procedures and requirements, creating treatment strategies and an introduction to herb dosages, an in depth study of 109 core herbs as recommended by the National Herbalists Association of Australia, taking a comprehensive assessment of the client, managing specialised herbal treatments and discussing contra-indications of herbs and herbal treatments	\$546.50	\$630.00	\$273.00	0.1	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
CLI229 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.077	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
TERM 4								
ANP401 - Anatomy & Physiology	In this unit students will learn about the spinal cord and spinal nerves, the brain and cranial nerves, nervous tissues, the autonomic nervous system, the sensory, motor and integrative systems and the special senses.	\$546.50	\$630.00	\$273.00	0.076	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
HER419 - Herbal Medicine Therapeutics I	This unit will provide the participant with the knowledge and skills to apply learned theories in clinical practice and applications giving participants knowledge and skills to prescribe various herbs in disorders of the liver and gallbladder, urinary, respiratory, nervous, immune and digestive systems. Other areas covered in this unit include: Determining treatment strategies, treatment and management of disease, therapeutics, clinical practice and applications and drug interactions	\$546.50	\$630.00	\$273.00	0.076	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010

BIO105 - Biochemistry	Areas covered include; the atomic structure of principal elements of the human body, the structure and function of protein, carbohydrates, lipid, nucleic acid, biochemistry of vitamins, oxidants and antioxidants and the process of metabolism	\$546.50	\$630.00	\$273.00	0.076	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
CLI329 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.066	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
<b>TERM 5</b>								
MED110 - Medical Science	A comprehensive discussion is provided on medical history, analysis and identification of common symptoms and signs. This unit is presented on a problem-solving basis. Areas covered include; case taking, general examination, physical signs, headaches, tiredness, loss of weight, insomnia, difficulty in breathing, abdominal pain, chest pain, back pain, oedema, vomiting and joint problems	\$546.50	\$630.00	\$273.00	0.076	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
HER519 - Herbal Medicine Therapeutics II	This unit will provide the participant with the knowledge and skills to apply learned theories in clinical practice and applications giving participants knowledge and skills to prescribe various herbs in disorders of the eyes, ears, nose and throat and the reproductive, lymphatic, cardiovascular, integumentary, musculoskeletal and endocrine systems. Other areas covered in this unit include: Treatment and management of disease, client assessment and record keeping, therapeutics and treatment strategies, clinical practice, taking case histories and identifying dietary needs	\$546.50	\$630.00	\$273.00	0.076	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
PAT104 – Pathology I	To provide the participants with the knowledge and skills to understand and describe the pathological mechanisms of common disorders. Disease processes; Aetiological factors in disease, Aging, Cellular adaptation, injury and death, Definitions and terminology, Immunity, immunopathology, Inflammation, healing, pathological investigations, neoplasia & pain. Systematic Pathology: Disorders of the skin & musculoskeletal system	\$546.50	\$630.00	\$273.00	0.076	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
NAT307 – Clinical Nutrition I	Students will learn problems associated with obesity and weight management, a number of common health problems are discussed with management via nutritional intervention. Other areas covered in	\$546.50	\$630.00	\$273.00	0.076	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010

	this unit will include familiarisation with various nutritional formulas and supplements that are available for prescribing; knowledge of issues such as IV (parenteral) administration of vitamins and minerals and a knowledge of chelation therapy					Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
CLI429 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.076	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
<b>TERM 6</b>								
MED210 - Medical Science	Areas covered in this unit include; patient history taking in relation to gynaecological and obstetric problems, ENT problems and paediatric problems. Also included are; aetiology, signs and symptoms, differential diagnosis of normal pregnancy, labour, pre-eclampsia toxemia (PET), fibroids, breast cancer, hypertension, H-mole, endometriosis, abortion, ectopic pregnancy, menopause, antepartum haemorrhage, PPH, vaginal discharge, milestones & growth, immunisation, childhood asthma and allergies, congenital disorders, breast feeding and weaning, glaucoma, cataract and the prevention of some of the above disorders and conditions will also be discussed	\$546.50	\$630.00	\$273.00	0.076	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
HER619 - Herbal Medicine Manufacturing	To provide instruction in the techniques and principles involved in the manufacture of herbal medicines. Assessment of commercial products, manufacture a wide range of preparations, prepare plants for medicinal use, methods of application, working out herbal formulations, growing and harvesting herbs, drying herbs and looking more depth at Chinese and Ayurvedic herbs.	\$546.50	\$630.00	\$273.00	0.076	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
PAT204 – Pathology II	To provide the participants with the knowledge and skills to understand and describe the pathological mechanisms of common disorders. Laboratory investigation of pathology; Disturbance of body fluid homeostasis and metabolic disorders  Systematic Pathology Cardiovascular, Renal, Respiratory, Reproductive, Gastrointestinal & Nervous systems	\$546.50	\$630.00	\$273.00	0.076	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
CLI529 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.076	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010

<b>TERM 7</b>								
NAT407 – Nutrition for specific needs	Areas covered in this unit include; food additives, micro organisms and food, ecology and diet, fast food, alcohol, coffee, food labelling and a knowledge of dietary requirements for different cultural and religious groups. Nutritional requirements in paediatric, geriatrics, infants, children, adolescents, peri & post menopausal women, lactating mothers and athletes. Clients with mental health issues and palliative care needs will also be discussed.	\$546.50	\$630.00	\$273.00	0.066	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
BHS106 - Behavioural Science	This unit is an introduction to understanding human behaviour and the relationship between basic behavioural influences and ill health, both physiologically and psychologically. Nature, Nurture and Need Factor Influences are studied through a combination of theory and practical applications	\$546.50	\$630.00	\$273.00	0.066	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
MIC108 - Microbiology	Areas covered include; bacteria, parasites and viruses and their distribution, characteristics and common disorders caused by bacteria, viruses and parasites along with favourable conditions for micro-organisms, controlling methods for growth of bacteria and viruses, indigenous micro-flora, communicable and contagious diseases and methods of disease transmission	\$546.50	\$630.00	\$273.00	0.066	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
Elective unit 1	To be chosen from the list of available electives	**\$484.00	\$567.00	**\$242.00	0.066	11/05/2010	19/08/2010	02/06/2010
CLI629 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.066	Weekend 16/01/2010	Weekend 24/04/2010	05/02/2010
						Weekday 11/05/2010	Weekday 19/08/2010	02/06/2010
<b>TERM 8</b>								
PHA112 - Pharmacology	Areas covered include; terminology used in pharmacology; methods of administration, absorption, metabolism, excretion, formulations, drugs used in cardio-vascular problems, NSAID, opiates, anti microbials, hypoglycaemic agents, anti-depressants, hypnotics and anxiolytic drugs, poisoning and antidotes, sympathomimetics, antihistamines, anti-parkinsonians, drugs used with GI tract disorders, chemotherapy, preparation of ointments, creams and mixtures, WA Drug and Poison Act, labelling, writing and understanding prescriptions; drug-herb interactions and drug-nutrient interactions.	\$546.50	\$630.00	\$273.00	0.066	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010

MAN120 – Practice Management and Ethics	This unit is designed to develop the knowledge of Act of Parliament and Regulations in relation to the practice of Natural Medicine, professional indemnity and liability insurance, accounting and taxation requirements, advertising and promotion, business planning and other issues related to the establishment of your own practice. Students will be required to complete their own business plan by the completion of this unit	\$546.50	\$630.00	\$273.00	0.066	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
BHS206 - Behavioural Science	This unit takes the fundamentals of human behaviour discussed in Unit BHS106 and moves the student's knowledge and application skills to the next level by adding lateral thinking skills, non-verbal and verbal communication techniques, dealing with difficult behaviours, basic counselling skills and situational analysis procedures. As in Unit BHS106, this unit is taught experientially with each lecture being a combination of theory and application exercises	\$546.50	\$630.00	\$273.00	0.066	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
Elective unit 2	To be chosen from the list of available electives	**\$484.00	\$567.00	**\$242.00	0.066	07/09/2010	16/12/2010	29/09/2010
CLI729 Clinical Training	Training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.066	Weekend 15/05/2010	Weekend 21/08/2010	04/06/2010
						Weekday 07/09/2010	Weekday 16/12/2010	29/09/2010
<b>TERM 9</b>								
RES220 - Research Methodology	Research Methodology includes research strategies, research techniques, communication of research findings with others, analysis of research data, presentation skills, statistical analysis and undertaking of research projects	\$546.50	\$630.00	\$273.00	0.066	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
SEM007 - Seminar Series		\$546.50	\$630.00	\$273.00	0.066	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010
Elective unit 3	To be chosen from the list of available electives	**\$484.00	\$567.00	**\$242.00	0.066	12/01/2010	22/04/2010	01/02/2010
CLI829 Clinical Training	Final training in our on site student clinic dealing with members of the public, case studies and clinical applications	\$546.50	\$630.00	\$273.00	0.066	Weekend 11/09/2010	Weekend 11/12/2010	01/10/2010
						Weekday 12/01/2010	Weekday 22/04/2010	03/02/2010

Students are required to complete a minimum of 300 clinical training hours as a component of this course.

**\*\*These fees apply to all elective units EXCEPT ACU118, ACU218 & RET217**

- ACU118 & ACU218 = \$515.00 unit fee / \$250.00 RPL unit fee
- RET217 = Price to be confirmed with the AIHM prior to enrolment

Students are required to complete 3 electives from those offered by the AIHM during the completion of this course. Electives are generally 30 hours and can be selected from the list below:

116 - Homoeopathy

117 - Flower Essences

118 - Work within a TCM and Acupuncture Framework

121 – Kinesiology

122 – Reflexology

123 – Aromatherapy

125 – Meditation

126 – Yoga

127 – Energy Healing & Tai Chi

130 – History & Philosophies of Ayurveda

218 - Develop Basic Acupuncture Treatment Protocols

228 – Intuition in Healing

330 – Ayurvedic Nutrition

630 – Intro to Ayurvedic Tactile Therapies

709 – Trigger Point Massage Therapy

809 – Acupressure

1009 – Bowen Therapy

1030 – Vedic Astrology

NUT307 – Nutritional Recipes
